

Ukraine – Complex Emergency

APRIL 29, 2022

SITUATION AT A GLANCE

- The GoRF war against Ukraine continues to result in civilian deaths, generate further population displacement, and exacerbate humanitarian needs countrywide.
- Following days of GoRF attacks, President Zelenskyy announces plans to evacuate civilians who have been trapped in Mariupol’s Azovstal steel plant for two months.
- UN releases a revised Ukraine Flash Appeal and Ukraine Regional Refugee Response Plan, both reflecting expanded humanitarian needs.
- With support from USAID/BHA and other donors, WFP reaches approximately 2.7 million people with in-kind food assistance and cash distributions from late February to late April.

TOTAL U.S. GOVERNMENT HUMANITARIAN FUNDING For the Ukraine Response in FY 2022 ¹	USAID/BHA ²	\$89,997,307
	State/PRM ³	\$211,622,792
Total⁴		\$301,620,099

For complete funding breakdown with partners, see detailed chart on page 8

¹ Funding figures reflect a portion of publicly announced funding that has been committed or obligated as of March 25, 2022.

² USAID’s Bureau for Humanitarian Assistance (USAID/BHA)

³ U.S. Department of State’s Bureau of Population, Refugees, and Migration (State/PRM)

TIMELINE

February 24, 2022

GoRF armed forces commence attacks across Ukraine.

February 24, 2022

USAID/BHA announces the activation of a DART to lead the USG humanitarian response to the crisis in Ukraine and a Washington, D.C.-based RMT to support the DART.

February 27, 2022

The USG announces nearly \$54 million in additional humanitarian assistance, including \$28 million from USAID/BHA and \$25.6 million from State/PRM.

March 1, 2022

The UN launches its Ukraine Flash Appeal, and UNHCR launches the Regional Refugee Response Plan.

March 3, 2022

The first USAID/BHA relief commodities arrive in Lviv for onward distribution.

March 9, 2022

U.S. Vice President Kamala Harris announces an additional \$53 million in USG humanitarian assistance.

March 15, 2022

State/PRM announces an additional \$186 million in assistance.

March 24, 2022

The White House announces \$1 billion in USG humanitarian assistance.

April 18, 2022

GoRF forces escalate offensive in eastern and southern Ukraine.

KEY DEVELOPMENTS

Conflict Results in At Least 2,899 Civilian Deaths, Displaces 13.1 Million People

Conflict in Ukraine following the Government of the Russian Federation (GoRF) invasion in late February continues to result in civilian deaths, displace millions of people, and generate large-scale humanitarian needs, the UN reports. The conflict resulted in at least 2,899 civilian deaths and injured at least 3,235 people between February 24 and April 28, according to the Office of the UN High Commissioner for Human Rights (OHCHR). However, the UN agency notes that actual figures are likely significantly higher as ongoing hostilities disrupt and delay reporting.

In addition, between February 24 and April 28, the GoRF invasion displaced approximately 13.1 million people—or 30 percent of Ukraine’s pre-war population—with approximately 7.7 million people displaced internally as of mid-April, according to the International Organization for Migration (IOM). Meanwhile, more than 5.4 million people fleeing hostilities in Ukraine had crossed into neighboring countries as of April 28, the Office of the UN High Commissioner for Refugees (UNHCR) reports. Conflict-affected populations are seeking refuge in Poland, Romania, the Russian Federation, Hungary, Moldova, Slovakia, and Belarus, while hundreds of thousands of people have transited to other countries.

GoRF forces continued to attack parts of eastern, northeastern, and southern Ukraine as of April 28, defying the UN’s call for a suspension of hostilities, international media report. On April 19, UN Secretary-General António Guterres released a statement calling for a countrywide ceasefire from April 21 to 24 to allow relief actors to transport humanitarian commodities to parts of Ukraine experiencing active hostilities. Additionally, UN Crisis Coordinator for Ukraine Amin Awad echoed the call in an April 24 statement advocating for an immediate ceasefire in Donetsk *Oblast’s* Mariupol city and southern Ukraine to facilitate civilian evacuations. An estimated 100,000 civilians required evacuation from Mariupol as of late April, according to the city’s mayor. In addition, UNHCR estimates that 13 million people in conflict-affected parts of Ukraine are unable to flee due to heightened security risks, the destruction of road and transportation infrastructure, and a lack of access to information on security conditions and safe accommodation.

GoU Announces Plan to Evacuate Civilians Trapped in Mariupol’s Azovstal Steel Plant

On April 29, President of Ukraine Volodymyr Zelenskyy announced that the Government of Ukraine (GoU) plans to evacuate the estimated 1,000 civilians trapped in Azovstal steel plant in Mariupol. GoRF forces reportedly conducted dozens of airstrikes affecting the steel plant from April 25 to 28, with one airstrike generating a fire in one shelter housing civilians and burying an unknown number of civilians under rubble, Mariupol officials and

international media report. GoRF forces also reportedly attacked an evacuation corridor from the plant on April 26 after announcing its establishment via loudspeaker; the number of civilian casualties resulting from the incident remained unknown as of April 29. More than 600 civilians sheltering at the plant had sustained injuries due to recent hostilities as of April 27, and individuals at the site lack sufficient medical supplies, food, and safe drinking water. Civilians have been sheltering in underground facilities beneath the plant for approximately 60 days seeking refuge from GoRF attacks on residential areas of the city.

UN Releases Revised Ukraine Flash Appeal, Regional Refugee Response Plan

On April 24, the UN released a revised Ukraine Flash Appeal, identifying 15.7 million people in need of humanitarian assistance due to the impact of ongoing conflict. Overall, the appeal requests more than \$2.2 billion to provide emergency assistance to the 8.7 million worst-affected people across Ukraine through August. The revised appeal represents a 45 percent increase in the number of people targeted to receive assistance compared with the 6 million beneficiaries identified in the original Ukraine Flash Appeal released on March 1, largely due to deteriorating humanitarian conditions and the expanded scale and scope of the humanitarian response. Under the revised appeal, 207 humanitarian partners—more than half of which are Ukrainian non-governmental organizations (NGOs)—aim to provide conflict-affected populations across all of Ukraine's 24 *oblasts* with water, sanitation, and hygiene (WASH); food security and livelihood; health; protection; shelter, and multipurpose cash assistance (MPCA), among other types of life-saving aid. As of April 21, relief actors had provided emergency humanitarian assistance to more than 3.4 million people countrywide, with the number of people reached increasing more than threefold between late March and late April, the UN reports.

In addition to the UN's release of the Ukraine Flash Appeal, on April 25, State/PRM partner UNHCR launched a revised Ukraine Regional Refugee Response Plan (RRP), calling for \$1.9 billion to support 8.3 million refugees and third-country nationals fleeing conflict in Ukraine through late 2022. The revised plan represents a 250 percent increase in the number of individuals targeted with aid compared to the 2.4 million people identified in the original plan released in March. Through the RRP, relief actors will prioritize multi-sector humanitarian assistance to refugees and third-country nationals sheltering in five neighboring countries—including Poland, Moldova, Romania, Hungary, and Slovakia—as well as those who have transited to other countries in the region. The plan also prioritizes support to host communities most affected by the rapid arrival of refugees and third-country nationals.

Up to 5 Million People May Require Emergency Food Assistance in Ukraine

Between 2.5 and 5 million people across Ukraine will likely require emergency food assistance in the coming months to address worsening food insecurity and augment disrupted livelihoods due to the GoRF invasion, representing a fivefold increase compared with the 500,000 to 1 million people requiring similar assistance in 2021, according to the Famine Early Warning Systems Network (FEWS NET). Amid the spring planting season in March and April, hostilities continue to hamper agricultural livelihoods and production, including by displacing households involved in production, disrupting supply chains, and limiting access to agricultural inputs and land. Consequently, the GoU projects that agricultural output could decrease by between 25 and 50 percent through both the winter and spring harvests, resulting in a significant deterioration in food security conditions within Ukraine. In addition, the GoRF invasion has significantly disrupted livelihoods and the importation of essential commodities, such as fuel and seeds, while constraining access to adequate food, particularly in eastern Ukraine, FEWS NET reports. In response to deteriorating food security conditions, relief actors reached an estimated 3.2 million people with emergency food assistance and livelihood support between February 24 and April 26 in Ukraine with USAID/BHA and other donor support. The U.S. Government (USG) continues to closely monitor food insecurity within Ukraine and neighboring countries.

U.S. GOVERNMENT RESPONSE

LOGISTICS AND RELIEF COMMODITIES

USAID/BHA partners are working to transport relief commodities to Ukraine from neighboring countries and provide these items to conflict-affected individuals as security and humanitarian access conditions permit. USAID/BHA recently delivered hygiene supplies sufficient to support 47,500 people for one month to IOM in Lviv *Oblast* for distribution and approximately 47,000 high thermal blankets to the UN agency in Slovakia for onward dispatch to Ukraine. Overall, USAID/BHA had provided IOM with approximately 87,000 blankets; 20,000 High Energy Biscuits; 18,500 kitchen sets; and 4,800 10-liter water containers, as well as water tanks and treatment units, to meet humanitarian needs within Ukraine as of April 27.

Moreover, USAID/BHA is supporting the UN World Food Program (WFP) to lead the Logistics and Emergency Telecommunications clusters, the coordinating bodies for humanitarian logistics and emergency telecommunications activities, respectively, comprising UN agencies, NGOs, and other stakeholders. As part of its role as the Logistics Cluster lead, WFP is coordinating logistics services for the broader humanitarian response, developing common advocacy to address logistical challenges, facilitating humanitarian convoys and corridors, and establishing logistics bases to consolidate and prioritize humanitarian cargo deliveries. As of April 19, the Logistics Cluster had facilitated the movement of approximately 7,300 metric tons (MT) of humanitarian assistance for distribution to conflict-affected households in Ukraine since late February.

Meanwhile, State/PRM is supporting IOM and UNHCR to provide logistics support to the refugee response in neighboring countries.

FOOD SECURITY

To support increasing food needs among conflict-affected individuals in Ukraine, USAID/BHA partner WFP is procuring immediate response rations sufficient to feed 125,000 people for five days. WFP plans to assist up to 3.1 million conflict-affected individuals in Ukraine, as well as 300,000 crisis-affected individuals in neighboring countries, with USAID/BHA and other donor support. As part of this effort, USAID/BHA funding is supporting WFP to procure and distribute more than 8,300 MT of in-kind food assistance rations to support more than 119,000 people for four months; provide cash-based transfers to nearly 30,700 people for four months; and deliver approximately 240 MT of emergency food assistance, including High Energy Biscuits, to 239,000 people.

Overall, with support from USAID/BHA and other donors, WFP reached approximately 2.7 million individuals with emergency food assistance and cash distributions between late February and late April. The UN agency recently expanded food programming in conflict-affected locations near Ukraine's capital city of Kyiv, including Bucha town, where WFP reached

nearly 2,000 individuals during the week of April 11. As of April 27, WFP had also provided MPCA to 139,000 vulnerable individuals in Ukraine.

USAID/BHA is also supporting Catholic Relief Services (CRS) to provide cooked meals to people in collective shelters in Moldova who have fled the war in Ukraine.

\$5.5 Million

In dedicated FY 2022
USAID/BHA support for
MPCA

MULTIPURPOSE CASH ASSISTANCE

USAID/BHA supports IOM and two NGOs, while State/PRM supports IOM, UNHCR, and an implementing partner, to provide MPCA to help conflict-affected individuals meet their basic needs. MPCA also enables households to meet shelter and winterization needs. A USAID/BHA international NGO (INGO) partner is supporting approximately 1,500 IDPs in Donetsk's Volnovakha city with MPCA and is preparing for MPCA distributions in other areas of Donetsk where banks are operational. The INGO is also distributing food vouchers to IDPs in Chernivtsi and Ivano-Frankivsk *oblasts*. As of April 25, State/PRM partner UNHCR had enrolled more than 162,000 people in Chernivtsi, Dnipropetrovsk, Khmelnytsky, Lviv, Ternopil, Vinnytsya, and Zakarpattia *oblasts* in its MPCA program and plans to enroll additional conflict-affected individuals in Cherkasy, Kirovohrad, Poltava, and Zaporizhzhya *oblasts* in the coming weeks.

State/PRM is also supporting IOM and UNHCR to provide MPCA to refugees in neighboring countries, as well as the UN Children's Fund (UNICEF) to provide cash assistance to vulnerable households with children in transit. As of April 11, UNHCR had enrolled nearly 10,500 people in Poland and nearly 8,600 people in Moldova in its MPCA program.

100,000

health kits can support

HEALTH

To support the health needs of conflict affected populations, USG humanitarian partners are providing health kits, medicine, and other health assistance. USAID/BHA is supporting UNICEF and the UN World Health Organization (WHO) to respond to emergency health needs in Ukraine. As of mid-April, USAID/BHA partner UNICEF had delivered five ambulances to children's hospitals in Lviv, with plans to deliver additional ambulances to children's and maternity hospitals in Chernihiv, Chernivtsi, Dnipropetrovsk, Kharkiv, Mykolayiv, Sumy, and Zaporizhzhya *oblasts*. The UN agency had also distributed medical supplies sufficient to treat nearly 835,000 people to health care facilities in Cherkasy, Dnipropetrovsk, Kharkiv, Kyiv, Lviv, Odesa, Poltava, and Sumy *oblasts*.

With support from USAID/BHA and other donors, an INGO delivered nearly 45 MT of medical commodities—including emergency and reproductive health kits and personal protective equipment—to cities in Ivano-Frankivsk, Kharkiv, and Odesa *oblasts* during the week of April 4. Also with USAID/BHA support, WHO delivered 10 interagency emergency health kits—sufficient to sustain the health care of up to 100,000 people for three months—and five trauma and emergency surgery kits, with combined

medicines and supplies to support at least 500 surgical operations in emergency situations, into Kyiv.

State/PRM is supporting WHO to provide health assistance to refugees in neighboring countries. This includes meeting urgent trauma care needs and emergency health care by deploying emergency medical teams; providing trauma kits, essential medical supplies and equipment, and logistics support to fill urgent gaps; extending access to COVID-19 services to refugee populations, including vaccination; preventing and responding to vaccine-preventable diseases, such as measles and polio; providing mental health and psychological support to vulnerable populations and frontline health care workers; and preventing sexual exploitation and abuse.

In addition, State/PRM is supporting the UN Population Fund (UNFPA) in Moldova to increase health system capacity to absorb an increased refugee caseload through the deployment of mobile and static integrated community sexual and reproductive health (SRH) and gender-based violence (GBV) health units, supplies, and interventions to increase access to SRH and GBV prevention and response services. State/PRM is also supporting UNICEF in neighboring countries to scale up health support, including to prevent disease outbreaks and support infection prevention and control training. In addition, State/PRM is supporting IOM to provide primary health care consultations, mobile health and emergency services, and mobile psychosocial support teams.

WASH

85,000

Number of people that USAID/BHA hygiene supplies provided to IFRC and an INGO can support in Ukraine

In response to WASH needs among conflict-affected populations in Ukraine, USG humanitarian partners are providing critical assistance, including by providing WASH commodities and increasing populations' access to sanitation and safe drinking water. USAID/BHA has delivered 105 pallets of hygiene supplies to the International Federation of Red Cross and Red Crescent Societies (IFRC), 95 pallets to IOM, and 65 pallets to an INGO partner in neighboring countries for onward distribution into Ukraine; each pallet contains supplies sufficient to meet the needs of 500 people. In addition, with support from USAID/BHA and other donors, UNICEF facilitated access to safe drinking water for nearly 409,000 people in Ukraine by augmenting water availability in collective sites, conducting water trucking services, and distributing drinking water between late February and late April. The UN agency also distributed WASH commodities to more than 86,000 people across Ukraine during the period.

USAID/BHA also supports UNICEF and four NGO partners to address existing WASH needs by conducting hygiene promotion activities and distributing essential hygiene items to vulnerable communities and social institutions. In addition, USAID/BHA supports the WASH Cluster to provide humanitarian coordination and information management support, including sharing critical information with humanitarian partners regarding conflict incidents affecting WASH infrastructure and services. State/PRM

partners are also conducting WASH activities among conflict-affected communities in Ukraine.

State/PRM is supporting UNICEF to provide WASH assistance to refugees in neighboring countries, including strengthening sanitation infrastructure in shelters and distributing hygiene kits to refugees. State/PRM is also supporting IOM to provide hygiene kits, safe drinking water, and water infrastructure.

10

Number of USG implementing partners providing essential protection services

PROTECTION

In response to increasing protection concerns among both populations in conflict-affected areas and those crossing from Ukraine into neighboring countries, USG partners are providing protection supplies and services. USAID/BHA is supporting UNICEF to deliver child protection supplies to support 40,000 people during the initial weeks of displacement in Ukraine. To address ongoing protection concerns in Ukraine, USAID/BHA supports seven NGOs to implement protection interventions for vulnerable populations. USAID/BHA partners provide psychosocial support services to children, persons with disabilities, and older people; operate mobile protection teams to reach remote communities; and conduct mine risk education activities to minimize protection risks.

In addition, State/PRM partners—including IOM, UNHCR, and UNICEF—provide protection and legal services to vulnerable individuals and are monitoring the impacts of ongoing hostilities. This includes through the establishment of “Blue Dots,” which are multi-agency facilities that provide one-stop protection services and social service referrals to new refugee arrivals in neighboring countries. As of March 23, State/PRM partners had reached more than 24,000 people with protection services through seven “Blue Dots” in Moldova, Poland, and Romania.

In neighboring countries, State/PRM is providing protection support through IOM, UNFPA, UNHCR, and UNICEF, including GBV prevention and response, child protection, mental health, and psychosocial support; prevention and response to trafficking in persons; and establishment of child-friendly and women and girl-friendly spaces.

CONTEXT IN BRIEF

- The GoRF commenced widespread attacks against Ukraine on February 24 after months of gathering hundreds of thousands of military forces and heavy weaponry near its border with Ukraine. Immediately prior, the GoRF had ordered forces into Donetsk and Luhansk non-government-controlled areas after recognizing the areas' independence from Ukraine on February 21.
- On February 24, USAID announced the activation of a Disaster Assistance Response Team (DART) to lead the U.S. Government humanitarian response to the crisis in Ukraine, with staff in Rzeszów, Poland; Chişinău, Moldova; and Bratislava, Slovakia. To support the DART, USAID activated a Response Management Team (RMT) in Washington, D.C. State/PRM staff in Warsaw, Poland; Budapest, Hungary; Chişinău, Moldova; Bucharest, Romania; Bratislava, Slovakia; and Washington, D.C., also continue to support response activities.
- Since March 2014, the conflict in eastern Ukraine has caused large-scale population displacement and widespread damage to infrastructure. The heaviest fighting has occurred in the easternmost *oblasts* bordering Russia, particularly Donetsk and Luhansk; however, the large influx of IDPs has also affected neighboring *oblasts*. The GoU estimated that the ongoing conflict had internally displaced approximately 1.4 million people as of October 2020. In addition, the UN estimated that 2.9 million conflict-affected people in eastern Ukraine required humanitarian assistance as of early 2022.
- On November 26, 2021, U.S. Chargé d'Affaires Kristina A. Kvien renewed the disaster declaration for Ukraine for FY 2022 due to widespread displacement and continued humanitarian needs of vulnerable populations in eastern Ukraine.

PUBLIC DONATION INFORMATION

- The most effective way people can assist relief efforts is by making cash contributions to humanitarian organizations that are conducting relief operations. A list of humanitarian organizations that are accepting cash donations for disaster responses around the world can be found at interaction.org.
- USAID encourages cash donations because they allow aid professionals to procure the exact items needed (often in the affected region); reduce the burden on scarce resources (such as transportation routes, staff time, and warehouse space); can be transferred very quickly and without transportation costs; support the economy of the disaster-stricken region; and ensure culturally, dietarily, and environmentally appropriate assistance.
- More information can be found at:
 - USAID Center for International Disaster Information: cidi.org
 - Information on relief activities of the humanitarian community can be found at reliefweb.int.
